

Knitting Evaluation Checklist

ASDP Member:

Date Submitted: _____ Results: Pass Re-submit

- ~Stitches should be even and must maintain proper gauge throughout.
- ~Ribbing should retain tension appropriate to pattern. In looking at garment, each part should be in proportion to all other parts or look balanced.
- ~Pattern; no errors in pattern whether overall one color or a multicolor design.
- ~Inside of the garment; no knots or free yarn ends. No holes where yarn is joined. Seams must be neat with proper tension.
